

Solar Center Seminars on
Wednesday May 15th from 16:15-21
In C303 (Lunch Room)

Viktor Bliksted Roug Pedersen: Carbazol-extended TTF

Manuel Minnucci: Exploring the versatility of porphyrins: From solar energy conversion to catalysis and sensing

Magnus Bukhave Johansen: Routine Calculations of Third-order Cluster Perturbation Excitation Energies Using GPU Acceleration

Joseph M. Hamill: Some measurements with TTF

Kurt V. Mikkelsen: Life is too short, what to do?

Pizza, beer, wine, soda
