POSTERS
FACULTY ABSTRACTS
EXHIBITION
SPEAKERS

10:30 – 12:00 | Hall 1 (N20/N19)

MCFI 2 | TREATMENT OF THE POSTERIOR MAXILLA IN CHALLENGING SITUATIONS**Moderation:** Z. Artzi (Israel)

Key factors in the treatment of the posterior maxilla

Z. Artzi (Israel)

Innovative approaches to sinus lifting

L. Trombelli (Italy)

Effective use of short implants

D. Nisand (France)

10:30 – 12:00 | Hall 2 (S22/S23)

CPP 5 | CRITICAL FACTORS IN THE ASSESSMENT OF PERIODONTAL AND PERI-IMPLANT DISEASE**Moderation:** G. Serino (Sweden)

Similar or different conditions

G. Serino (Sweden)

Clinical Diagnostic Methods in Periodontal and Peri-implant diseases

D. Barendregt (Netherlands)

Prognostic factors for the long term success for the Periodontal / Peri-implant patient

O. Fardal (Norway)

10:30 – 12:00 | Capital Suite 7 – 12

UP 5 | AETIOLOGY OF PERIODONTAL DISEASES**Moderation:** U. Van Der Velden (Netherlands)

Understanding the aetiology of periodontitis: an introduction

U. Van Der Velden (Netherlands)

Is there good evidence that plaque causes periodontitis?

I. Needleman (United Kingdom)

Is it time to move away from the „Plaque Paradigm“ in the aetiology of Periodontitis?

P. Hujuel (USA)

10:30 – 12:00 | Capital Suite 17

RCI 8 | RESEARCH SESSION: DENTAL IMPLANTS 2**Chair:** P. Windisch (Hungary)A retrospective evaluation of aesthetic outcomes for single-tooth implants in the anterior maxilla
N. Boardman, S. Chen, L. Darby (Australia)

A comparative study of bilateral maxillary sinus lift: autogenous bone vs alloplastic grafts

U. Garagiola, E. Del Rosso, C. Maiorana,G. Szabò (Italy, Hungary)

A multivariate analysis on implant treatment outcome of cemented vs screw-retained reconstructions in patients with and without history of periodontitis

G. De Moyer (Belgium)

Long-term prospective cohort study on dental implants: clinical and microbiological analysis

H. Tenenbaum, O. Bogen, R. Elkaim, J. Davideau,O. Huck (France)

Zoledronic acid for guided bone regeneration in osteoporotic conditions

N. Mardas, J. Buseti, J.A. De Figueiredo,L. Mezzomo, N. Donos (United Kingdom, Brazil)

Aesthetics, patient satisfaction and impacts of single tooth implants after at least one year in function

S. Shahdad, A. Gamboa, I. Apostoulous, E. Lynch,E. Gamble, G. Ioannidis, R. Pawar, J. Makdissi

(United Kingdom)

10:30 – 12:00 | Capital Suite 1

RCI 9 | CLINICAL INNOVATIONS: IMPLANTS 1**Chair:** N. Pandya (United Kingdom)

Digital implant planning with 3D printers and CBCTs in guided surgery and bone graft procedures

F. Vidal, R. Vidal (Brazil)

Large Size Ridge Defects: Early Healing Outcomes Following GBR

B. Leblebicioglu, M. Burashed, L. Alssum, A. Gross,T. Eubank, L. Christian, V. Yildiz, D. Tatakis (USA)

Esthetic, clinical and patient centered outcomes of immediately placed implants (Type 1) and early placed implants (Type 2): Preliminary three-month results of an ongoing randomized controlled clinical trial.

G. Huynh-Ba, D. Meister, A. Hoders, B. Mealey,M. Mills, T. Oates, D. Cochran, C. McMahan (USA)
