Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-020-64077-2>, published online 06 May 2020

The original version of this Article contained an incorrect title where, “Prokineticin receptor 2 affects GnRH3 neuron ontogeny but not fertility in zebrafish” was incorrectly given as “Knocking-down of the Prokineticin receptor 2 affects reveals its complex role in the regulation of the hypothalamus-pituitary-gonadal axis in the zebrafish model”.

This has now been corrected in the PDF and HTML versions of the Article.
