

## TABLE OF CONTENTS

	page n.
<b>I. SUMMARY</b>	1
<b>II. INTRODUCTION</b>	
<b>Part I</b>	
<b>Teneurins - an emerging family of transmembrane protein</b>	3
<b>1. 1 Invertebrate Teneurins</b>	3
1.1.1 Teneurin Expression in <i>Drosophila melanogaster</i>	4
1.1.2 Teneurin Expression in <i>Caenorhaditis elegans</i>	6
<b>1.2 Vertebrate Teneurins</b>	8
1.2.1 Domain Organization of Teneurin Family	9
1.2.2 Vertebrate Teneurin Expression and Functions	13
1.2.2.1 Avian Teneurins	14
1.2.2.2 Murine Teneurins	17
1.2.2.3 <i>In Vitro</i> studies of Teneurins	21
<b>1.3 Teneurin Genes</b>	25
1.3.1 The ODZ4 gene	26
<b>1.4 Teneurins in Human Diseases</b>	27
1.4.1 TCAPs as Neuroprotective Factors	27
1.4.2 X-linked Mental Retardation	28
1.4.3 Teneurins and Cancer	29
<b>Part II</b>	
<b>Teneurins in Human Ovarian Cancer</b>	
<b>2.1 Ovarian Cancer</b>	32
2.1.1 Ovarian Cancer Histopathology	33
<b>2.2 Ovarian Cancer and Mesothelioma: Common Origin, Common Features</b>	33
<b>2.3 Teneurins in Ovarian Cancer</b>	34
<b>III. AIM OF THESIS WORK</b>	36
<b>IV. MATERIALS AND METHODS</b>	38
4.1 Cell Lines and Culture Conditions	39
4.2 Nucleic Acid Purification	40
4.3 Reverse Transcription and PCR-amplification (RT-PCR)	41
4.4 Polymerase Chain Reaction (PCR) Amplifications	43
4.4.1 Primers Design	43
4.4.2 ODZ4 Primer Specificity	44
4.4.3 PCR Cycle Conditions	46
4.5 DNA Fragment Cloning	50
4.6 DNA Sequencing and Sequence analysis	51
4.7 Rapid Amplification of cDNA Ends	52
4.8 Northern Blot Analysis	54

---

V. RESULTS	57
5.1 ODZ4 is expressed in human cell lines derived from ovarian and breast tumors	58
5.2 Coding-structure analysis of the ODZ4 transcript in human cell lines derived from breast and ovarian tumors	60
5.3 5'-end : CDS definition and splice variants in the ODZ4 transcript	62
5.4 3'-end : CDS definition and study of the untranslated region of the ODZ4 transcript	64
5.5 Long range inter-exon amplification of ODZ4 transcript	67
5.6 Full-length ODZ4 transcript derived from tumor cell lines	72
5.6.1 RACE Experiments	72
5.6.2 Detection of ODZ4 transcript in human cancer-derived cell lines	77
VI. DISCUSSION	80
6.1 The human ODZ4 Full-length transcripts	80
6.2 The ODZ4 splice variants	81
6.3 Human ODZ4 Transcripts In Ovarian and Breast Cancer-derived Cell Lines	82
6.4 Final Conclusion	84
VII. APENDIX	
7.1 Supplemental material (Figure A1-A2)	86-87
7.2 List of Thesis Figures and Tables	88
VIII. REFERENCE	89
IX. PUBLICATIONS AND SCIENTIFIC CONTRIBUTIONS	96
X. ACKNOWLEDGEMENTS	100
