Table 2: parent's employment of the 505 enrolled children. Four different employment categories were identified: not employed (0), manual workers (1), office workers (2) and intellectual workers (3). The distribution of the $\mathbf{4}$ employments categories in parents and mothers are reported as raw scores and percentages in a $4 \times 4$ table. The number of fathers and mothers with a given employment and the percentage within the table (N/Table total), the Row (N/Row total) and the Column ( $\mathrm{N} / \mathrm{Col}$ total) are reported.

|  |  |  | Mother's employment |  |  |  | Row <br> Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | 0 | 1 | 2 | 3 |  |
