SESSION 1: SPEECH IN HEALTHY AND PATHOLOGICAL AGING ( <a href="#">General Zoom link</a> )	
9.00-9.30	Marta Maffia, Massimo Pettorino & Anna De Meo Speech rhythm, age and Parkinson's disease
9.30-10.00	Idikó Hoffmann, Gábor Gosztolya, Veronika Svindt & Judit Bóna Temporal parameters of spontaneous speech based narrative recall in multiple sclerosis
10.00-10.30	Réka Balogh, Nóra Imre, Gábor Gosztolya, Ildikó Hoffmann, Magdolna Pákáski & János Kálmán Beyond words: analyzing silent segments, hesitations and irrelevant utterances in verbal fluency recordings for the detection of mild cognitive impairment
10.30-11.00	Nóra Imre, Réka Balogh, Gábor Gosztolya, László Tóth, Ildikó Hoffmann, Tamás Várkonyi, Csaba Lengyel, Magdolna Pákáski & János Kálmán Temporal speech characteristics in elderly type 2 diabetes mellitus patients - examining cognitive state through speech
11.00-12.00 KEYNOTE LECTURE: <b>ALEXANDRA KÖNIG</b> Automatic Speech and Language Analysis for Screening and Monitoring of Neurocognitive and Neuropsychiatric Symptoms in Elderly People ( <a href="#">General Zoom link</a> )	

SESSION 2: NEURAL AND LANGUAGE CHANGES IN AGING ( <a href="#">General Zoom link</a> )		
12.00-12.30	<b>Nathalie Giroud</b> The impact of age-related hearing loss on neural speech tracking	
12.30-13.00	<b>Ishani Thakkar, Leonardo Arraño-Carrasco, Bárbara Cortés Rivera, Romina Zunino-Pesce &amp; Carolina P. Mendez-Orellana</b> Cortical Bilaterality and Cerebellar Involvement in Semantic and Phonological Processing with Age	
13.00-13.30	<b>Elliot Murphy</b> Neural dynamics of language and their developmental stages	
13.30-14.00	<b>Antonio Benítez-Burraco &amp; Olga Ivanova</b> Language impairment in aging and language evolution	
SESSION 3: VOCABULARY AND SEMANTICS IN HEALTHY AND PATHOLOGICAL AGING (I)		
	Subsession 3.1. ( <a href="#">General Zoom link</a> )	Subsession 3.2. ( <a href="#">Zoom link Room II</a> )
16.00-16.30	<b>Krishna Viswam, Sunila John &amp; B. Rajashekhar</b> Pattern of Word and cluster generation during a semantic fluency task in Malayalam-English healthy ageing bilinguals	<b>Olga Ivanova &amp; Azucena Penas</b> Emotional vocabulary and phraseology in healthy speakers and speakers with dementia
16.30-17.00	<b>Paula Méndez-Orellana, Caitlin Holme, Karina Sandoval-León, Bárbara Cortés-Rivera, Gabriela Cruz-Lezama, María Fuenzalida- Riesco, Fernanda Soto-Soto, Javiera Soto-González, Carolina Méndez-Orellana &amp; Silvia Martínez-Ferreiro</b> Spontaneous speech as a window to language change in healthy elderly	<b>Kathrin Rothermich</b> Nonliteral language processing across the lifespan
17.00-17.30	<b>Girija P C, Nayana Narayanan &amp; Ayshe Henna</b>	<b>Carmen Varo Varo</b>

	Is senescence a detriment of metasemantics? - An analytical study	The interaction between meaning and concept: some evidence from the word-finding deficit in patients with semantic dementia
<b>17.30-18.30</b> <b>KEYNOTE LECTURE: LISE ABRAMS</b> The Tip of the Aging Tongue: How Word Finding Problems Give Insight into Older Adults' Speech ( <a href="#">General Zoom link</a> )		
<b>SESSION 3: VOCABULARY AND SEMANTICS IN HEALTHY AND PATHOLOGICAL AGING (II)</b>		
	<b>Subsession 3.1. (I)</b> ( <a href="#">General Zoom link</a> )	<b>Subsession 3.2. (II)</b> ( <a href="#">Zoom link Room II</a> )
18.30-19.00	<b>Svetlana Malyutina</b> Lower lexical diversity in older than younger adults regardless of task demands	Ingeborg Sophie Ribu, Monica Norvik, Minna Lehtonen & Hanne Gram Simonsen Free-word associations in healthy aging and dementia
19.00-19.30	<b>Mariya Khudyakova</b> Effect of age on lexical diversity in three discourse genres	<b>Karolina Lice, Ana Matic &amp; Jelena Kuvač Kraljević</b> Word processing abilities of persons after stroke and TBI: insights from error analyses

**FRIDAY, 30 APRIL 2021**

<b>SESSION 4: GRAMMAR AND DISCOURSE IN HEALTHY AND PATHOLOGICAL AGING</b>		
	<b>Subsession 4.1</b> ( <a href="#">General Zoom link</a> )	<b>Subsession 4.2</b> ( <a href="#">Zoom link Room II</a> )

The International Online Workshop on Language in Healthy and Pathological Aging

29-30 April 2021

<https://agelang.wordpress.com/>

9.00-9.30	<b>Victoria Cano-Sánchez, Itziar Laka &amp; Mikel Santesteban</b> Prediction and ungrammaticality detection: Young versus old adults	<b>Judit Bóna</b> Self-repairs in elderly speech
9.30-10.00	<b>Willem van Bortel</b> Syntactic Representations Remain Intact in Aging: Evidence from Structural Comprehension Priming	<b>Gloria Gagliardi, Daniela Beltrami, Rema Rossini Favretti, Enrico Ghidoni, Fabio Tamburini &amp; Laura Calzà</b> Natural Language Techniques for the early detection and the monitoring of cognitive frailty: findings from the OPLON project
10.00-10.30	<b>Hyejin Park, Jessica Obermeyer &amp; Eun Jin Paek</b> Discourse Elicitation Task Effects on Verb Tense Production in Aging	<b>Niharika Mahajan, Sonal Chitnis, Hemina Dawar, Sujit Jagtap, Poornima Karandikar &amp; Sankar Prasad Gorthi</b> Association of education with cognitive-communicative skills in persons with Dementia
10.30-11.00	<b>Kayla Chapin</b> Alzheimer's disease and Mild Cognitive Impairment under a linguistic lens	<b>Ana Varela Suárez</b> Cohesion in the Dementia Discourse: A Cross-narrative Analysis
11.00-11.30	<b>Katerina Fragkopoulou, Christina Manouilidou &amp; Spyridoula Varlokosta</b> Comprehension of number agreement in strong personal pronouns and clitics in Greek-speaking individuals with Alzheimer's Disease	<b>Medha Karbhari Adhyaru, Apala Gupta, Sonal Chitnis &amp; Sujit Jagtap</b> Auditory comprehension abilities of Hindi speaking persons with dementia
<b>BREAK</b>		
<p><b>12.00-13.00</b>  <b>KEYNOTE LECTURE: THOMAS H. BAK</b>            Language in Later Life: a Multilingual Perspective  <a href="#">(General Zoom link)</a></p>		
<b>SESSION 5: COGNITIVE ENHANCEMENT IN HEALTHY AND PATHOLOGICAL AGING</b>		

	Subsession 5.1. ( <a href="#">General Zoom link</a> )	Subsession 5.2. ( <a href="#">Zoom link Room II</a> )
13.00-13.30	<b>Brittany Blankinship &amp; Thomas H Bak</b> Language Changes in Later Life Multilinguals	<b>Jelle Brouwer, Floor van den Berg</b> Foreign language learning to promote cognitive flexibility and well-being in healthy seniors and seniors with late-life depression or mild cognitive impairment
13.30-14.00	<b>Alessandra Vicentini, Daniel Russo, Kim Grego, Daniele Grechi</b> The Age.Vol.A. research project: Findings from a survey on caregivers, the elderly and their families in Northern Italy	<b>Mara van der Ploeg, Annerose Willemsen, Louisa Richter, Merel Keijzer &amp; Tom Koole</b> Calls for assistance in the third-age language classroom
14.00-14.30	Closing session ( <a href="#">General Zoom link</a> )	
<b>14.30-15.30</b> <b>KEYNOTE LECTURE: HEATHER HARRIS WRIGHT</b> Discourse Changes with Aging: Measurement and Processes ( <a href="#">General Zoom link</a> )
